# Director's Report for the half year ended 30th June, 2020

#### Dear Shareholders,

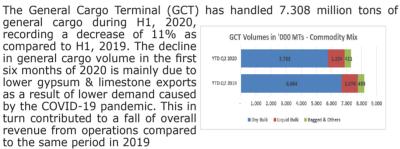

On behalf of the Board of Directors, I have the pleasure in presenting the unaudited consolidated financial results of your company for the period ended 30th June, 2020 (H1 2020).

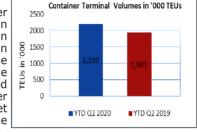

At the outset, I hope you and your family are safe. We are indeed living through very unusual times and your Company has faced the challenge of COVID-19 pandemic by immediately mobilizing efforts to protect employees and our immediate communities.

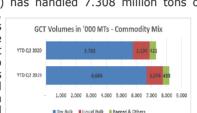

The uncertainty around the course of the pandemic started in March'20 leading to the governments across the world initiating lockdowns. This affected our business and operations in the last quarter. As the disruption continues unabated, its major impact will be seen in the quarters ahead We need to accept the new normal for working - be it in the offices, and/ or in the operations.

### **Company Performance**

During H1, 2020 the Container Terminal (CT) handled 2.199 million compared to 1.941 mil TEUs in corresponding period last year, an increase of 13%. The growth of the container volumes compared to the first 6 months of 2019 is explained by the fact that the container términal operations had not yet recovered from the impact of the cyclone in the first months of 2019.

## **Financial Overview**

Consolidated net profit for H1, 2020 was recorded at RO 11.076 million as compared to the corresponding period last year at profit of RO 2.169 Million. Consolidated EBITDA was recorded at RO 18.427 million during H1, 2020, as compared to RO 7.646 million during same period last year. This includes an insurance claim amount of OMR 11.250 million. The underlying net result of H1, 2020 excluding insurance settlement was RO 2.818 Million.

In May 2018, Port of Salalah was impacted by Cyclone Mekunu. PoS reached a settlement with the insurance parties for USD 67.75 mil (OMR

26.050 mill) for loss and damage compensation, which was accepted by SPS Board in February 2020. In this regard, an advance payment of USD 38.5 mill (OMR 14.808 mill) was already received in 2018 and recognized as income in the 2018 financial statements. The balance of USD 29.25 mill (OMR 11.250 mill) is fully received and recognized in the in first 6 months of 2020.

CT revenue has increased by 3% as compared to corresponding period last year due to growth in volumes. Revenues of GCT have decreased by 22% compared to the same period last year mainly due to a 32% drop in marine revenue. The drop in marine revenue was attributable to lower number of non-cargo related vessel calls such as cruise and navy vessels and shorter berth stay.

Direct Operating cost increased by 8% as compared to corresponding period last year mainly due to increase in direct personnel cost. Other operating costs increased by 10% compared to corresponding period last year mainly due to an increase in insurance costs.

#### **Employee Development**

Port of Salalah is steadfast in developing and enhancing employees' productivity as people are the primary asset of the company. Various safety, technical, management and administration trainings are imparted

Safety continues to be maintained as a top priority to ensure that employees continue to perform and deliver their tasks safely. Raising the level of safety performance has encouraged corrective behavior action plans for employees to perform safely at their work place.

## Corporate Social Responsibility (CSR)

Port of Salalah strongly believes in a CSR program that is aligned with the pillars of sustainability and volunteerism and it is fundamental to our business. In our efforts to support the government and the community to fight against the COVID 19 pandemic, the Company has donated R.Ó 45,000 out of CSR budget for procurement of the medical equipment to Sultan Qaboos Hospital Salalah and providing food baskets to the families

who are affected.

#### **Future Outlook**

As per the recent report of the IMF, the global economy in 2020 is expected to contract by 4.9 % which is even more pessimistic as compared to the forecast in April 2020 which projected a negative growth of - 3 %. It has also forecasted a slower than previously anticipated growth in 2021 at about 5.4 %.

Shipping lines continue to rationalize capacity in most main line sectors. In Salalah, container volumes remain stable and service calls won by the port in Q2, 2020 have also supported stability in volumes. The management continues to pursue new opportunities to further enhance volumes. The mitigating measures put in place together with the estimated slow recovery in container volume points to a relatively positive trend the

The general cargo continues to face challenges of low due to low demand for limestone and gypsum primarily due to continued lockdown in major consumption centers. Demand is expected to pick up in Q3, 2020. New cargoes and customers have mitigated part of the revenue loss from drop in aggregate volumes. However, focus continues to be on customer diversification with the Management continues to engage customers for securing additional business to offset volume de-growth of existing

We are forecasting a slow recovery of volume in Q3, 2020 and a further improvement in Q4, however our ability to handle the volume in view of the impact of the pandemic remains a concern.

#### Conclusion

On behalf of the Board of Directors and the Shareholders of the company. we record the sincere appreciation and gratitude to His Majesty Sultan Haitham bin Tariq, for his strategic vision, leadership, and his continued support, without which it would not have been possible to establish and maintain this world-class port.

We also thank our customers, investors, and partners at the Salalah Hub and Ministry of Transport and Communications, and members of the Government bodies we work together with.

We place on record our appreciation for the contributions of all our employees, who continue to perform with high distinction.

On behalf of the Board of Directors,

Sheikh Braik Musallam Al Amri Deputy Chairman - Board of Directors' Salalah Port Services Co. SAOG
